

Proposal Revision Award

Application Deadline: **November 8, 2024**

Award Project Period: 12 months

Award Amount (up to): \$100,000

Opportunity:

This is a one-year award for up to \$100,000 to support the revision and resubmission of an application for federal research support.

Eligibility Requirements:

1. The prior extramural application must have received a priority score and full review by the sponsor within the past two years.
2. Training grant (e.g., K08, K23, TL2) and R03 submissions do not qualify for this award.
3. Must be a faculty member or other person who has PI-eligible status.
4. Each investigator may only submit one application per award type as the program lead.
5. Previous IGA recipients must have provided progress reports for all prior IGA funding.

Application Requirements:

- Letter of Support from Program Leader/Division head addressed to President and Chief Research Officer. The letter should include:
 - The level of commitment (i.e., applicant's protected time for research project)
 - Proposal title and award type
 - Name of the target granting agency for extramural support for the proposed project
- Type of original mechanism and score
- Timeline for resubmission
- Objectives and timeline for use of IGA funding
- The original application, including biosketches
- Summary comments and score for the original application
- A complete response addressing ALL comments
 - Three (3) page maximum, including a description of any planned major aims revisions and additional preliminary data to support response
- Budget & Budget Justification (see guidelines below)

Application Instructions:

- Submit complete application materials prior to the deadline using the link on the [Internal Funding Opportunities](#) webpage.

Budget Guidelines:

- Budgets should be submitted on [PHS398 NIH format form page \(4\)](#)
- A budget justification should be included with the application materials
 - x No indirect costs (F & A)
 - x No travel support to professional meetings
 - x No salary support for investigator or mentor
 - x Funds may not be used for capital equipment
 - ✓ Salary support can be provided for support personnel (i.e., technician, statistician, etc.)

Review Process:

- Funds are awarded on a competitive basis based on scientific merit, innovation, potential impact, and likelihood of leading to external funding.
- All applicants may be asked to revise or resubmit an alternative plan based on review feedback.
- Applications are reviewed by an expert reviewer and a review panel in the following areas:
 - **Significance:** *Is the focus of the proposed work important in children's health? Will external peers likely endorse the proposed significance in peer review?*
 - **Impact:** *Is the project likely to have a sustained, powerful influence on the research field(s) involved? Can the potential impact be conveyed to external peers to endorse extramural funding?*
 - **Innovation:** *Does the project have novel conceptual, technical, and collaborative ideas? If successful, will the proposed innovations be highly regarded by external peers?*
 - **Feasibility:** *Can the proposed work be completed in a year to the extent that it will lead to a competitive extramural award application within 18 months of the project start?*
 - **Investigators:** *Is the proposed leadership justified and appropriate?*
 - **Relevance to award:** *Does the proposal incorporate and embrace the spirit of the award type?*

Award Conditions:

- Recipients are required to submit an extramural application for sustained research support within 18 months of receiving the award.
- Award is for a one-year period. A one time, no-cost extension of up to six months may be applied for and are granted with specific approval from Manne Research Institute scientific leadership team.
- In the case that new external funding is received during the project period to support related research, the IGA award will be terminated. Remaining project funds will revert to the IGA pool to support other needs.
- Progress reports are required at the end of the project period (12 months) and 1 and 2 years after the end of the project period.
- All applicants may be asked to revise or resubmit an alternative plan based on review feedback.
- Inclusion of the following in any publications or presentations that are a direct result of this funding:
